

# STEM Careers

Student worksheet

Name: \_\_\_\_\_

Date: \_\_\_\_\_

**Directions:** Read the [16 Women in Engineering to Learn More About](#) blog post. Then answer the questions below.

1. Which of the 16 engineers interested you most? Why?
  
  
  
  
  
  
  
  
  
  
2. Follow the biography link for the engineer you chose. Read the short biography and write 3 facts that you think are interesting about the engineer's life.
  
  
  
  
  
  
  
  
  
  
3. Follow the career link provided for the engineer you chose. In the career's *Key Facts & Information* table, you will see a list of Key Characteristics that often describe someone who enjoys that career. Write these characteristics in the table below. Think about how each characteristic does or does not describe you. Then fill out the rest of the table based on your self-assessment.

Key Characteristic	This describes me...		
	Perfectly	Sort of	Not at all

4. Finish reading all parts of the career profile. Do you think this is a career you would enjoy? Explain why or why not.
