

Doctor, What Does My Plant Need?

Role Play Example

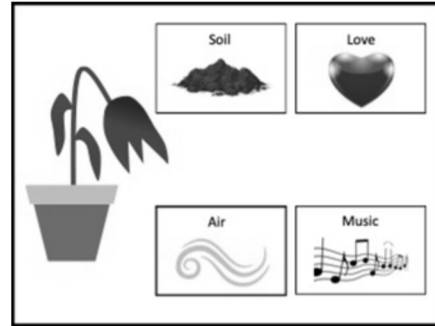

An **example consultation** might look like this:

Example Cards:

Card with healthy plant (for plant scientist)

Card with unhealthy plant (for caller)

Role Play:

[Phone rings]

Scientist: *"Hello, this is Doctor [student's name] the plant scientist."*

Caller: *"Hello. I have a plant that looks very unhealthy. Can you please help me make it better?"*

Scientist: *"I am sorry to hear that. How do you know your plant is not doing well? Can you describe what your plant looks like?"*

Caller: *"The flower and petals of the plant are turning brown as well as the leaves. It is also not standing upright anymore. The stem and leaves are drooping."*

Scientist: *"What do you give your plant every day, so it can grow?"*

Caller: *"My plant has **soil** and **air**. It also gets lots of **love** and I play **music** for it every day."*

[see symbols on the unhealthy plant cards]

Scientist: *"Are you sure your plant gets enough **air**?"*

[basic need #1 represented on healthy plant card]

Caller: *"Yes"*

[as this symbol is shown on the unhealthy plant card]

Scientist: *"Do you have it in a pot with lots of **soil**?"*

[basic need #2 represented on healthy plant card]

Caller: *"Yes, it has lots of soil"*

[as this symbol is shown on the unhealthy plant card]

Role Play Example

Scientist: “Does your plant get enough **light**?”

[basic need #3 represented on healthy plant card]

Caller: “No, I actually have it standing in the dark all the time.”

[as this symbol is not shown on the unhealthy plant card]

Scientist: “Do you **water** your plant every day?”

[basic need #4 represented on healthy plant card]

Caller: “No, I actually forgot to do that for a long time!”

Scientist: “Hmmm - it looks like your plant doesn’t get enough light and water. Make sure to give your plant water every day from now on and place it somewhere where it gets enough light. This should make your plant better soon.”

Caller: “Thanks for your help. I will do that.”
