Science Then and Now

Over the last several months, we have been highlighting **scientists and engineers from science history**. Our short biographical notes are linked to Project Ideas, resources, and career profiles that may lead to an inspiring study of a famous scientist, invention, or discovery--or to an exciting science project! To follow along, [join our Facebook community!](#)

Sharing Student Successes

- Did you have a wonderful summer science adventure? We would [love to hear your stories!](#) Your science successes, both in class and over the summer, can help inspire others!
