**19. Do Energizer® batteries require an MSDS? ↑**

As defined in OSHA Hazard Communication Standard, Section 1910.1200(c), *Energizer®* batteries are manufactured "articles", which do not result in exposure to a hazardous chemical under normal conditions of use. For this reason, Material Safety Datasheets are not required. As a courtesy to our customers, *Energizer®* has prepared copyrighted Product Safety Datasheets to provide information on the different Eveready/ *Energizer®* battery systems.

**20. Can magnets affect battery performance? ↑**

No, magnetic fields will not impact battery performance.
